Editors Intelligences.

We ask the insertion of our card in your valuable journal, believing as we do, that you are willing that our side shall reach the public. We desire to state that we have nothing against Mr. Oesterling and the whole trouble is about Perry Goodwin.

The Flint Glass Workers Association of Wheeling and vicinity is a branch of the National Association of Flint Glass Workers of the United States. The National Association comprises all the Flint Glass Workers in the country and was organized for purposes of mutual protection to both amployers and employee, and not as a INTEST Fruit of the Season.

This matter was also discussed at the meeting of the glass blowers following the attike, and among those present and taking a very prominent part was Mr. Perry Goodwin, the man who is the cause of all the present A suggestion was made by some ant to donate one-half a turu per or the information of those who

trouble. A suggestion was made by some one present to donate one-half a turu per week. For the information of those who do not understand the technical terms we would say a half turn means two and one half hours wages. This certainly was not a very heavy tax under the circumstances. This amount was regularly paid by all the men except Goodwin.

When the time came for paying the first assessment, Goodwin said he was not able to pay, and a man who worked alongside of him leat him the amount, \$1. The second assessment he positively refused to pay, and when asked for his share on the third occasion, said he had his brother to keep, and that was as much as he intended to do. (His, reason, he said, for keeping the brother, was to keep him from going to work at Bellaire.) The men then agreed to let him off from paying, provided the brother did not go to work at the Bellaire Goblet Works.

About the 2d of April last, the brother.

He was notified of the de-ires of his fellow workmen and distinct with his obligations as a member of the Association. He was notified of the desires of his follow workmon and distinctly refused to pay anything or to have anything to do with the Association. In about six weeks or the latter part of May, he went to one of the committee who had charge of the matter and asked if they were still collecting tirins. He was answered yes, and Perry then said, if the pompities would come to him on the following. Friday, he would commence to pay and pay from that time. Subsequently the committee were directed to refuse anything from Goodwin unless he would pay from the time his brother went to work. From Christian Union, August 22, 1878.

Ever since Dr. Wm. M. Giles, of 451
Sixth avenue, extended a frank invitation to owners of lame horses to bring their equine property round to his place of business for free treatment, the corner of Twenty-seventh street and Sixth avenue has come to resemble a horse fair. The Doctor's boild defance, which if thus thrust upon the curious attention of his neighbors, is based on his earnest belief in his lodde Anmonia Liniment, which is now preferred to all others by the chief stock raisers and sporting men of the country.

A valuable horse of the writer's was kicked on the hock. Swelling and lameness ensued, rendering the animal nearly worthless. We were advised to try Giles Liniment, and are gratified to say it acted like a charm. About two inches of bone came away, the sore healed up, and the lameness and swelling are fast disappearing.
